

Electrical Worker Practicing License Competency Courses

for the EWRB 2019 electrical licensing round

www.goactive.nz New Zealand's most progressive electrical supplier

2019 PRACTICING LICENCE RENEWAL

As an electrical worker, you are probably one of the 25,000 who will need to renew your EWRB practicing license before June 30th 2019.

Check your practicing license now! If it expires 30 June 19, you need to renew it before that date. Don't wait until the last minute.

Let the team at Active Electrical Suppliers help you take care of it.

We are New Zealand's only electrical supplier to have created a professional development course for electrical trades and hold a training provider agreement with MBIE/EWRB.

WHAT YOU NEED TO DO

The Electrical Workers Registration Board (EWRB) have new requirements for this year and future electrical worker licensing rounds. There is now a pre-course requirement to do an on-line assessment prior to attending a competency programme course. The flow chart below sets out the new process.

1 Complete E-Learning Modules

ewrb-learning.co.nz

sign up or login to complete the 2 modules:

1. "About the Electrical Workers Competency Programme"
 2. "Electrical Safety and You"
- Print or screen shot the certificate of completion.

2 Attend an Active Competency Course

www.goactive/competency-courses/

Book a course on-line or at your local Active Electrical branch.

3 Renew your licence with the EWRB

www.ewrb.govt.nz

Login and select "competency programme". Your training details will have been updated following the course.

Follow instructions on the website to renew and receive your licence

Note: you can do this at any time before attending the competency course

ABOUT THE ACTIVE ELECTRICAL COURSES

Active Electrical Suppliers developed this combined professional development / competency programme to deliver a comprehensive course which provides both knowledge and skills improvement. In addition to this, our customers wanted a programme that would add tangible business and commercial value to their organisation with ongoing training for their team.

Our courses are developed as professional development courses for inspectors, electricians and electrical service technicians. This course incorporates the requirements for EWRB practicing licence renewal and First-Aid - CPR refresher training.

Our website and the animated video explains our course in greater detail

[www.goactive.nz / competency-courses](http://www.goactive.nz/competency-courses)

COURSES FOR LARGE ELECTRICAL CONTRACTORS AND ORGANISATIONS

In addition to our open courses, we can provide special courses for larger organisations and their work force. There are significant advantages for companies with large teams facilitating in-house courses:

- Managing costs with a fixed course fee.
- Managing logistics of staff and work site coverage.
- Team building and interaction.
- Tailoring the course to enhance the value relative to the employees work.
- Ensuring all staff get good training and tangible outcomes from the course.

#Note: there is a maximum of 20 attendees per session.

Your local Active Electrical Suppliers branch manager can work with the company owner or manager to arrange this training on site or at a suitable venue, together with a time that fits with the business.

COURSES FOR YOU

BOOK ON-LINE

BOOK IN BRANCH

Our course dates, locations and bookings are all available on our website. Your course costs can be charged directly to your Active Electrical Suppliers account or you can pay on-line with your credit card.

You can book for a course at any Active Electrical Suppliers branch and with it planned in each city where we have a branch, so there are plenty of options available.

Specialist courses for EAS & EST's will be available in some branch locations. To find out more email: technical@goactive.nz
